SYMPHONY OF SENSES

Celebrating the optimism that the spring season evokes, the value of traditions and enchanting details that capture the spirit of natural beauty is rediscovered. Like a choreography between functionality and modern aesthetics, blending the organic with the rustic, this collection embraces authenticity and distinctiveness, awakening the senses.

In a fusion of sentiment and contemporary minimalism, each design constitutes a beautiful work of art filled with fascination and storytelling, reflecting elegant silhouettes and natural materials with a deep passion for unique characters.

Easy on the eye and adorned with color interplays, the collection celebrates the art of craftsmanship and cherishes life's memorable and sensory moments.

The Lago series captures the play of colors in a forest lake, in a beautiful transition from the deep darkness of the lake's bottom gradually brightening towards the top.

/ SUMMER SYMPHONY

The essence of summer is a symphony of images, flavors, and experiences that invite immersion in the sun's rays, creating an outdoor space on the terrace – a natural extension of the home throughout the season. It's the perfect time to refresh the herb garden, even if it consists only of basil, thyme, and rosemary in small, refined jars.

Anku plant boxes impress with their simple oval shapes in a minimalist design that highlights the contrast between the organic and the graphic.

/ JAPANESE TRADITIONS

Stoneware is a delight for the senses – a symphony of exciting shades that elevate the dining experience. Renew your table setting with our collection of mocha-colored stoneware, Ceto, which shares Japanese design traditions with discreet minimalist elegance.

The beautiful surface and rich texture are enhanced by the reactive glaze, creating a fascinating contrast between gloss and matte, endowing each product with its own unique character and color variation.

/ NATURAL ARTWORK

The feeling of spring is kick-started by introducing unique novelties in the decor, at the dining table, and in the kitchen. Every detail sharpens our senses and enchants us with nature's finesse and beauty captured in the radiant expression of marble.

Vita is a series of extraordinary kitchen accessories that enhance the interior with a strong and beautiful piece of nature. These small marble artworks exude elegance and refinement, adding a robust and timeless beauty to any kitchen.

Lana is versatile and can be used as a lantern, a vase, or a jar, allowing you to tailor your decor and create different moods in your home.

/ RENEWING ATMOSPHERE

When the first rays of sun stream through the window, the reminder emerges that, no matter how dark and cold the days may be, summer is on its way. The first step towards spring feelings is to bring flowers and colors into the home. Fresh flowers and vibrant hues create a renewing atmosphere, welcoming the upcoming season and spreading optimism in every room.

/ INDUSTRIAL CHARACTER

Manhattan is inspired by the heart of the city, where history and modern aesthetics merge in a harmonious symphony of robustness and industrial character. Created with a simple construction in industrial iron that radiates both strength and elegance, Manhattan brings diversity and offers a stylish storage solution.

Decorate Manhattan and create a personal melody that infuses your home with a unique atmosphere. With its industrial design, Manhattan represents another raw masterpiece from Muubs, enriching any decor with much-needed immediacy.

/ HARMONIC CHOREOGRAPHY

Let harmonious colors and minimalist forms create a pleasant choreography between lines and elements that come together in a soothing visual experience. The magazine holder Ottawa is crafted in beautiful oak in an architectural design - an enriching robustness and a captivating structure that makes it a central element in your decor.

The oak shelves, Tokyo, embrace simple design aesthetics, achieving an honest and surprising expression with their floating expression and breathtaking simplicity.
